**AMACO LUSTRE & METALLIC GLAZES** are lead free, cone 06-05, glazes which produce the metallic look of hard steel and the high brilliance of lustre. The result is determined by the structure of the ware and the method of application. They are best applied by brushing or sponging to mature bisque. These glazes can be high fired to cone 4-6 with fantastic results. Mix to the consistency of rich cream. **\*L-518 is not lead free.**
